Overview

The Home section of My Account enables you to manage the following information related to your account:

- View available and assigned telephone numbers
- Change Main Number for a site
- Change Directory Listing
- Upgrade/downgrade telephone number types

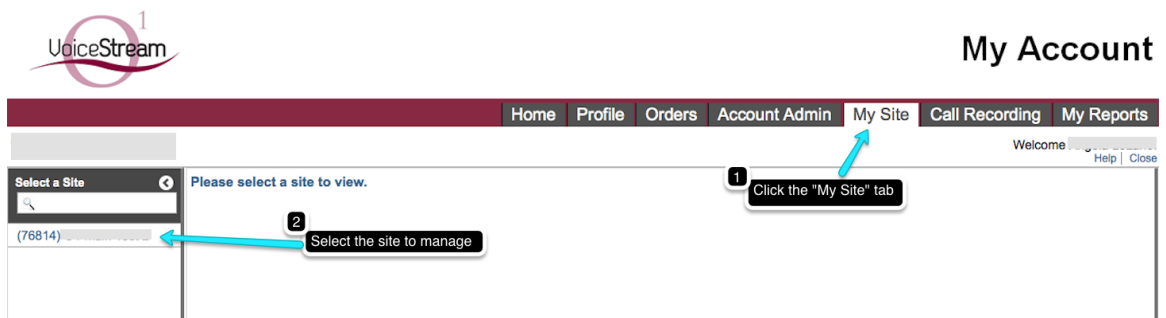

Login to My Account

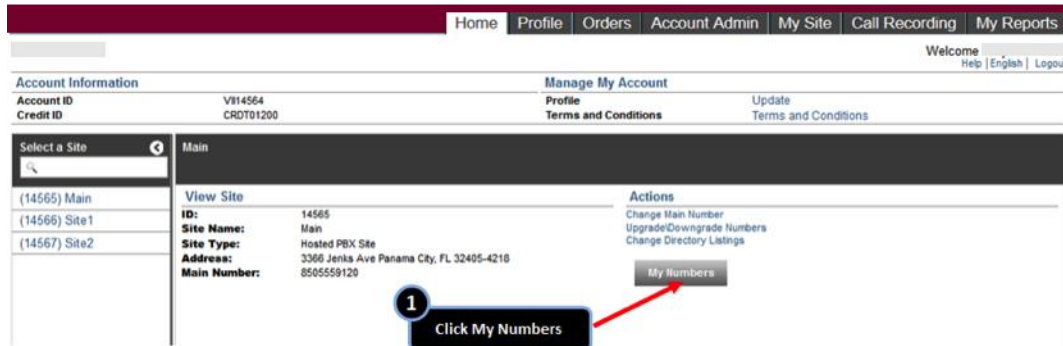

1. Open an Internet browser and go to the My Account portal. List of [Supported browsers](#).
2. Enter username and password.
3. Click the Login button.

To view My Numbers

1. Select a Site.

2. Click the My Numbers button

3. All phone numbers associated with the site are displayed.

The screenshot shows the 'My Numbers' page for the 'Main' site. It displays a list of phone numbers with columns for 'Tel', 'Phone Type', 'Station Type', 'First Name', 'Last Name', 'Address', and 'Call Recording'. The 'Tel' column contains various numbers, including the main number 8505559120. The 'Phone Type' column includes 'Main Number', '2-Way Number', and 'Office Line'. The 'Station Type' column includes 'Auto Attendant', 'Office Line', 'None', 'Call Center DNIS', 'Voice Portal', 'Call Queue', 'Group Paging', 'Meet-Me Bridge', 'Hosted Square Key 4 Lines', 'Executive Station', and 'Call Center'. The 'First Name' and 'Last Name' columns contain names like 'Flower', 'Pepper', 'EHG', and 'cbanner'. The 'Address' column shows 'Same as Site Address' for all entries. The 'Call Recording' column shows 'N' for all entries. A 'My Numbers' button is visible at the top right of the list.

Tel	Phone Type	Station Type	First Name	Last Name	Address	Call Recording

Submit a change order to upgrade or downgrade numbers:

Your account's phone numbers fall into one of two categories"

- Two-Way Number: associated with phones at your office location
- Two-Way Remote: associated with phones located outside of your office location (distinct E911 Address)

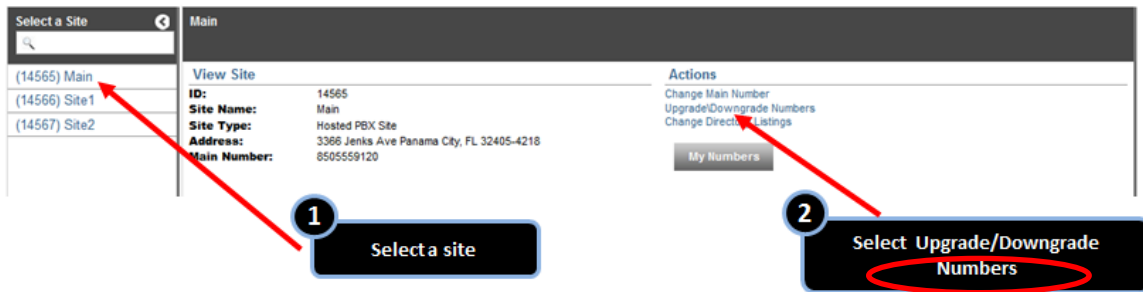

These numbers can be upgraded (i.e., converted from a two-way number to a two-way remote number) or downgraded (i.e., vice versa) at the administrator's discretion.

For example, if a user is currently assigned a Two-Way Number and using their phone only at their office location, but wish to take the phone to use at another location this would require an upgrade from a Two-Way Number to a Two-Way Remote. Conversely, if a user is assigned a Two-Way Remote number and currently using their phone remotely, but wish to use the phone only from their office location this would require a downgrade from a Two-Way Remote to a Two-Way Number.

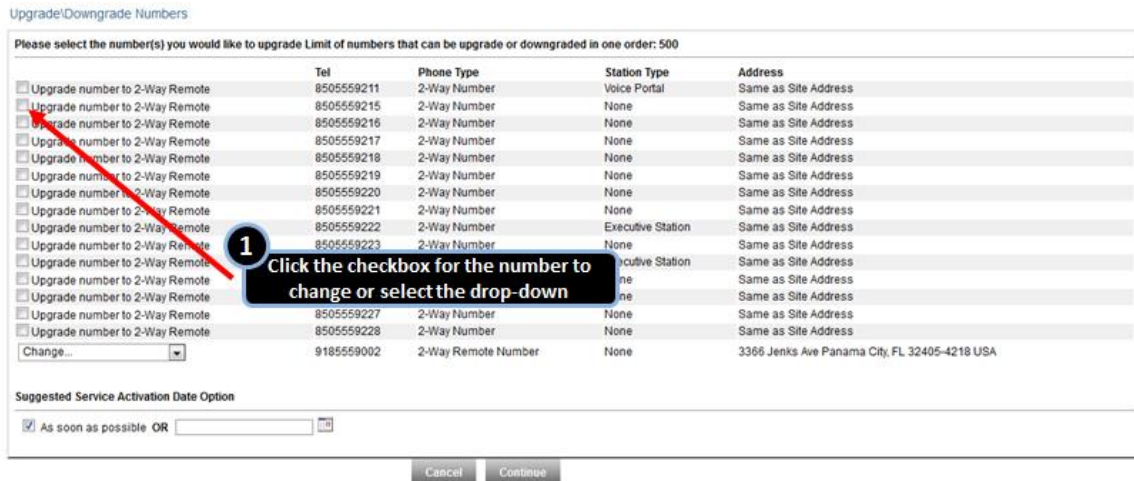

Important note about Two-Way Remote numbers:

If you wish to move a Virtual Communications Express IP phone to a new location, you must submit a change order prior to the move. If you do not submit such a change of location order or move an IP phone outside Verizon’s E-911 service area, the service may be suspended until you inform Verizon of the change or move the phone back within Verizon’s E-911 service area.

1. Select the site to be modified and click the Upgrade/Downgrade Numbers link.

2. Select the number to upgrade or downgrade.

3. Select “Upgrade number to 2-Way” or “Upgrade number to 2-Way Remote”

4. Select when this assignment should take place.
 - a. Choose either the "As soon as possible" or enter a specific date.
5. Click the Submit Order button.

Submit a change order to add a new directory listing information:

Directory Listings include a company name and directory category (e.g., restaurant, automobile dealer, physician, etc.). As an administrator, you can create specific directory listing information to each number associated with a site, and modify that information as desired. These directory listings will be published in print directories as well as online directories.

1. Click on the site to be modified, click the Change Directory Listings link.

2. To assign directory listing information to a number, click the Add DL link associated with that number.

Change Directory Listings

Please select the Directory Listing(s) you would like to change

Directory Listing / Directory Category	Tel	Phone Type	Station Type	Address
