

Feature Overview

You are busy enough managing customers, employees, meeting, etc. Fielding random solicitation calls from unknown callers is not what you need. These calls are a disruptive and anti-productive. The Reject Unidentified Caller feature enables business and individuals to reject all calls that have an unidentified caller id.

Feature Prerequisites

Before the Unidentified Caller feature can be used the following conditions must be met:

- At least one inbound number must be available to be assigned to a station.

Feature Setup

Step 1. Log in to My Phone

The login form contains the following elements:

- User Id:** A text input field with a blurred placeholder.
- Password:** A password input field with asterisks (*****).
- Remember me**
- Login** button
- [Forgot Your User Id?](#)
- [Forgot Your Password?](#)

Step 2. Go to the My Features tab

The screenshot shows the user dashboard interface. At the top right, there are links for "Language : English (United States)", "Profile", "Support", and "Sign Out". The main navigation bar includes "Home", "My Messages", "My Features", "My Rules", "My Numbers", and "My Call History". A blue arrow points to the "My Features" tab with the text "Click on My Features tab". Below the navigation bar, the page title is "Welcome to the O1 Phone / Voice Stream User Dashboard". On the left is a photo of a hand using a phone. On the right, there are descriptions for "My Messages", "My Features", "My Rules", "My Numbers", and "My Call History".

Step 3. Go to the Reject Unidentified Callers feature pane
